

## Academic 學術組 TASK 1 圖表題 寫作架構解析

- (1) Introduction (即將題目換句話說，換越多字越好)
- (2)\* Main trend  
\* A 圖的次要趨勢及上升/下降細節說明
- (3) B 圖的次要趨勢及上升/下降細節說明
- (4) A 和 B 圖之間的比較或相對應關係(重要!!!)
- (5) Conclusion (將 main trend 換句話再更簡單扼要說一次)

### Introduction 建議寫法

這個真的很好用!!! 不管任何題目第一句考慮直接套用就對了!!!

Given	is/are + the/one/two	diagram chart illustration figure table	demonstrating showing revealing highlighting displaying	圖主要內容
-------	-------------------------	---	---	-------

字彙的替換，會在題目那邊最常出現的大概有幾個重要的字。

group	percentage	number	spend	make up	area
category	ratio	figure	cost	constitute	region
class	portion	amount	consume	be composed of	zone
set	proportion	quantity	pay out	comprise	territory
sort				consist of	section
type					district

因為通常都會有兩個圖形一起出現，因此建議以下的寫法，接在那句開頭句之後。

One reveals +(A 圖的內容) while the other highlights +(B 圖的內容).

或

It/They demonstrate(s) both +(A 圖的內容) and +(B 圖的內容) at the same time.

或甚至可再其後再加

It is clear that the former ...while the latter...

舉某個蠶寶寶生活史的圖形為例

換字如果換得多，可能可以一下子字數就多了一倍以上，近 1/3 就完成了

### (題目是)

The diagrams below show the life cycle of the silkworm and the stages in the production of silk cloth.(共 19 字)

(Selena' s) 每個顏色各有相對應寫法，一次呈現兩個單字，分數可能會較高)~~

Given is one illustration demonstrating both the life cycle of the silkworm and the phases in the

manufacture of silk cloth at the same time. It is crystal clear that the former consists of four stages while the latter is composed of five steps.(共 44 字)

### 要點

(1)Given is one illustration/diagram/table/chart/figure + demonstrating/ revealing/highlighting/showing/displaying both...and...at the same time.

(2)It is crystal clear......

用來帶出每個趨勢，所以任何趨勢要寫時前面都可以加，非常好用!!!

(3)The former...the latter...

這當然也是比較 high-level 的寫法，能夠用到最好一開始就用，加深考官印象

(4)consist of 對上 be composed of，而 stages 對上 steps 對上 phases

每次帶出趨勢前，加的開頭句，每個都用不同的，呈現字彙 level 其實意思也就是”非常明顯 + (接下來你要講的趨勢).”

當然，**副詞**的部分，

### 盡量多替換

Adj	Noun / Verb	Adv.
minimal	increase / increase	minimally
slow	rise/ raise	slowly
slight	augmentation / augment	slightly
steady	advance / advance	steadily
gradual	growth / grow	gradually
dramastic	soar	dramatically
steep	climb / climb	steeply
rapid	escalation / escalate	rapidly
sudden	surge / surge	suddenly
sharp	reach a peak	sharply
drastic	be at a peak	drastically
considerable	go through the roof	considerably
significant	reach a plateau	significantly
abrupt	reach an all-time high	abruptly
tremendous	drop / fall	tremendously
profound	decrease / decrease	profoundly
devastating	decline / decline	devastatingly
	reduction / reduce	
	plunge	
	plummet	
	dwindle	

	take a nosedive	
	reach an all-time low	
	reach a low point	
	dip	
	come to the rock bottom	

It is	strikingly evident that...
	clearly seen that...
	extremely obvious that...
	exceedingly apparent that...
	crystal clear that...
It goes without saying that...	
It is needless to say that...	
It tells its own tale that...	
One particularly interesting fact highlighted by the diagram is that...	
What is worth noting / bringing up additionally is that...	
As can be seen from the data,...	
Taking a closer look at the diagram,...	

再來，當然是 **linking word/phrase** 的使用!!!!(隨便大家依照順序選用啦!!!XD)

To begin with	secondly	furthermore	lastly
At the very beginning	subsequently	moreover	at last
First or Firstly	following this	in addition	eventually
Initially	sequentially	besides	finally
	afterward	however	ultimately
	thereon	nevertheless	to sum up
	later	nonetheless	overall
			in conclusion

再回頭看那個蠶寶寶生活史的題目，我的寫法是~~

(這兩段裡面用到 13 個不同的時序副詞，當然這絕對非最好用法，但概念就是用越多越好)

At the very beginning, a female moth lays dozens of extremely tiny eggs which subsequently hatch and develop into larvae after approximately 10 days. Young tender mulberry leaves are required at this moment to provide the grubs with profoundly abundant nutrition for growth. Following this is a process of spinning cocoons in order to permit the development of the pupa or chrysalis, which generally takes 4 to 7 weeks or thereabouts before reaching the final stage in which adult moths eventually emerge from those cocoons.

As it proceeds to the phrase of forming cocoons, a number of them are initially selected out, submerged into a whole pot of water and sequentially boiled. Afterward they are unwound to unbelievably long threads ranging from 300 to 900 meters, twisted thereon, woven into a piece of work later and ultimately dispatched to be dyed.
